ILLUMINATED SAFETY ACCESSORIES

## ○ GLOW SKIN

The FHOSS Glow Skin is a light weight, illuminated, mesh overvest designed to provide additional illumination for a host of activities.

The Glow Skin features a white illuminated section on the front and a red illuminated section on the rear with additional reflective strips.

There is a zip pocket for the handy storage of small items with a built in, rechargeable battery that can be charged via the supplied micro USB cable.

The Glow Skin is water resistant with adjustable straps and can be stored in the pouch provided when not in use. Easy push button activation for glow or flash modes with up to 20 hours use time between charges.

GLOWSKIN RRP: £22.99

## ○ SIGNALING TAIL BAG & RUCKSACK

The FHOSS Signalling Rucksack and Tailbag are light weight, practical and durable. They incorporate an LED signalling unit that can be controlled via bluetooth.

The handlebar or wrist mounted remote control unit has 4 settings and can signal FORWARD, LEFT, RIGHT and ATTENTION symbols that can alert other road users.

Both products have adjustable straps and a built in, rechargeable battery that can be charged via the supplied micro USB cable that provides up to 10 hours use.

The Rucksack has a 5l capacity and the Tail Bag provides convenient storage for essentials such as phone, money and tools.

RUCKSACK RRP: £59.99,  
TAILBAG RRP: £47.99

## ○ CORD

The FHOSS Illuminated Cord has literally hundreds of uses. It is lightweight and can be easily cut to fit dependent on usage and requirements.

The velcro sticky pads provided can help fix the cord to items such as helmets which help increase the visibility and safety of the wearer.

It features slow flash, fast flash and steady glow modes and is powered by 2 small replaceable batteries which give up to 100 hours usage.

## ○ LED BELT

The FHOSS LED Belt is constructed from a flexible polymer with an LED strip and is available in two colours.

It is adjustable for size and incorporates an elastic strap for comfort.

It has two settings; slow flash and steady glow. It can be charged with the provided micro USB cable and gives up to 10 hours operation.

It can be used for a number of activities including running, cycling and walking.

CORD RRP: £15.99 - £16.49,  
LED BELT RRP: £15.99

## ○ MAG LIGHT

The FHOSS Magnet Light is versatile & easy to use. It incorporates two magnets which enable the light to be used in a variety of ways.

There are 2 small sticky pads provided that enable the light to be attached to a cycle helmet.

The 4 LED's are bright & have two settings; slow flash and steady glow. The replaceable internal battery provides up to 100 hours use.

## ○ ARMBAND

The FHOSS Armband provides 360 degree, enhanced visibility in areas of low light & darkness.

It has 2 settings; blink and glow modes and is powered by a small replaceable battery which provides up to 100 hours usage.

It is small and light and can be used for a variety of leisure activities to help increase visibility and safety.
